

Jenny Noeker has been selected as our June 2004 Employee of the Month. Jenny works in the Engineering Department and has been employed since December 22, 2000.

Her nominator notes, “Jenny is very deserving of this recognition. Jenny has worked in the Engineering Department for 3½ years. When she began her employment, she took on the phenomenal task of replacing an employee who worked for the Township for 25 years. The Engineering Department continued to run smoothly while Jenny learned the ropes. In addition, Jenny also began converting many documents and forms that were done by hand to electronic documents. Jenny consistently gives over 100%, whether it is volunteering to serve on committees and assisting in organizing events, to being a major contributor to the Township Magazine.”

It is with great pleasure that we present Jenny Noeker of the Engineering Department with our June 2004 Employee of the Month award.

**CONGRATULATIONS, Jenny!**
